

CPF Annual General Meeting

MONDAY 7th September 2026

All committee members offer themselves up for re-election.

Bennie Kruger, Russell Dugmore, Jurie Snyman, Brian Dick, Cynthia van Rensburg, Johan Cadle, Gertruda Anker, James Harris, Engela Flierl, Wade Trotter.

Chairman's Report

The CPF is a bridge between the community and police, and we would like to thank all the vigilant residents of Southbroom that serve as vital eyes and ears for our SAP Reservists and various security companies and law enforcement teams as our SAP reservists and security companies cannot be everywhere at once .

The main purpose of the CPF is to keep Southbroom a safe place to live in.

Crime statistics in Southbroom remain relatively low but for a few incidents that occurred during the past year.

There were five break-ins and two theft cases reported. All stolen goods with the exception of one cellphone were recovered.

SAP reservists arrested 25 people for mainly drinking in public, loitering, seed pickers, fishing without a license.

Sixty-one J534 Notices were issued for persons found loitering, noise reporting fires, and anyone caught drinking in public. People driving Golf carts around the village and motorcyclist riding around without helmet are also stopped and given a warning and repeat offenders are issued a J534.

The Patrol Vehicle attended to 553 call outs in the past twelve months.

The CPF patrol vehicle patrols 24/7. At all times there is a Wolf Security officer and a SAP reservist in the vehicle. There are day and night shifts, Southbroom is divided into four sectors, and the vehicle does an average of 100 kms per shift.

The CPF Patrol vehicle maintains a visible presence at the main entrance near the robots in the mornings while Wolf W7 stands off at the South entrance to ensure all workers arrive safely and, in the evening the same procedure is followed.

The Patrol vehicle also stands down in the CBD when businesses are closing to deter opportunistic crime. While on patrol at night all the businesses, Golf club, tennis Club and Bowling club are visited and checked. Main beach, Granny's pool and other beach areas are also monitored for illegal fishing, vagrants and fires.

Loiterers that are picked up at night are taken to the Sector office where they are fingerprinted and issued a J534 fine and removed from the area

Various motor vehicles accidents were attended to on the highway as well as in Southbroom. In Southbroom there were 2 serious incidents where drivers lost control of their vehicle, and vehicles had rolled, in total twenty-four accidents were reported and attended to.

The CPF Patrol vehicle also received thirteen calls for assistance for ambulances.

Open gates are still a problem over the past twelve months one hundred and thirty-two gates were found open and thirteen garage doors left open.

This not only puts you at risk but also your direct neighbor. When the Patrollers come across an open gate they will then contact the security company whose client is to come and close the gate and if there is no security company, they use the siren or hoot till someone comes out to close their gate or garage door

There are a few abandoned houses that are visited regularly during bush sweeps at night or patrols during the day to check for vagrants.

Our Sector office was visited by a total of 1057 people for amongst other certifying documents, affidavits, report lost and found, and some letting agents are also using it for visitors that arrive late to pick up their keys. Our Sector office is open 24/7 and if by chance SAP reservist is on patrol you can phone the patrol vehicle and she will come and assist.

The Southbroom Senior citizen program now has 62 houses registered and 92 residents on the database that are divided into two categories, those residents that are self-sufficient and those that need assistance. All their information is kept private by the committee member who deals with the seniors and the SAP lady who does the curtesy visits.

CPF has 2 WhatsApp Groups, the main group and CPF news group.

The main WhatsApp group is the original group to report namely:

Immediate crime, safety issues, emergencies, suspicious activity.

This is an operational group and reserved for actionable information and alerts only and if assistance is needed in SOUTHBROOM area only. This group is managed in line with committee guidelines. Admins action's, including message removals are carried out strictly according to instructions. These are procedural and not personal and help maintain the integrity of the group.

All other discussions belong on the CPF News WhatsApp group that allows group members to interact and have casual crime related discussions.
